Nutritional System

The Vital 3 System is composed of carefully formulated products that enhance the body's overall performance and wellness. These superior products, PhytoLife, Mistify, and ProArgi-9+, contain pure ingredients that construct a framework for ideal health.

Having a strategically balanced supply of nutrition, Synergy WorldWide's V3 System supports the optimal function of mind and body while enhancing stamina and endurance. Those who take advantage of this robust system can expect paramount products tested by experts who ensure that each product is perfectly manufactured to deliver sound results.

Product Advantage

Synergy WorldWide is committed to offering the highest quality products to its Team Members. With pure ingredients, advanced formulas, and superior manufacturing processes, Synergy controls every aspect of its product development, manufacturing, and testing.

- Synergy's R&D staff consists of Ph.D.'s, biologists, chemists, and research scientists with decades of individual experience working with nutritional supplements
- Synergy follows Good Manufacturing Practices (GMP) to ensure consistency and accuracy in all processes
- Synergy is certified by NSF, a third-party auditor that examines production equipment, policies, procedures, and manufacturing processes to ensure the highest level of quality
- Synergy invests millions of dollars each year into research and world-class quality testing to ensure the purity, quality, and safety of its products
- Synergy sources the ingredients for its products and thoroughly tests every incoming batch for purity, quality, and potency

Synergy WorldWide refuses to leave the quality of its products in the hands of someone else. All products are tested in-house to confirm that every aspect of quality is present in every container—because when it comes to your health, nothing else will do.

ProArgi-9+

ProArgi-9+ contains the amino acids L-Arginine and L-Citrulline along with vitamins C, D, and B6. With its myriad of benefits, the vitamins C and B6 found in ProArgi-9+ contribute to the normal functioning of the nervous and immune systems as well as to the reduction of tiredness and fatigue while the vitamin D found in ProArgi-9+ contributes to normal blood calcium levels, the absorption of phosphorus and the maintenance of normal muscle function.

ProArgi-9+ can be taken at any time during the day, simply mix one scoop with 240 ml water (to your taste) and stir until dissolved.

PhytoLife

Synergy's PhytoLife is a rich combination of chlorophyllin (sodium copper chlorophyllin) and peppermint oil. With quality in every drop, the peppermint oil found in PhytoLife contributes to normal digestive function and helps turn ordinary water into a great tasting drink that you can enjoy throughout the day. This, along with the fresh taste and liquid form,

makes PhytoLife a great companion to your food supplement regime.

Incorporate Synergy's PhytoLife into your diet by mixing one teaspoon (5ml) with a glass of water, twice daily.

Mistify

Mistify is a liquid food supplement, which contains vitamin B6, Açai Berry, and Green Tea extract. This extraordinary supplement is rich in flavor and incorporates a delicious blend of fruit and berry extracts and concentrates, including; grape, blueberry, raspberry, cranberry, bilberry, and pomegranate. Vitamin B6, found in Mistify, has been shown to contribute to:

- Normal psychological function
- Normal red blood cell formation
- Normal homocysteine metabolism

Experience the benefits of Mistify by taking 30 ml once or twice daily.
